

After the MP3 DVD was released it came to our attention that a couple of music (MP3) files needed to be corrected. While we cannot redo the DVD We offer the files for download.

Instructions:

- First download the replacement files from the website
- Assuming that you are playing the hymn using either a portable device or a computer, you need simply drag the downloaded files into the appropriate sub-folder on the hard drive to replace the existing MP3 files, then all should work .
- The file **704(ii) - Sicilian Mariners** goes in the "Christian Hymns/MP3/New Chistian Hymns, 700-799" folder and **673 - Bethany** goes in the "Christian Hymns/MP3/New Christian Hymns, 600-699" folder.
- You may need to re-sync your portable device.

Please accept out apologies for the error at the time that the MP3 DVD was produced.
